Technology Solutions - Software

A panel of experts will discuss all the latest technology that can make you more efficient and profitable. Learn how integrated software solutions make you more competitive in the challenging BHPH environment of today. What should you consider when selecting the right software? NABD provides you with a comprehensive checklist in this workbook which you can use as a reference after this conference. Network with software users and see all the latest technology in our "Solutions Hall". Your software is the "hub of your system" so selecting the right solution for your operation is one of the most critical decisions you need to make! Bring your questions and find the best solution before you leave this conference. Good luck!
