"The NABD Dealer Academy and NABD Conference is the best place in the industry to meet with high quality BHPH dealers and lenders. The 2012 show was the most well attended and productive show I have ever seen. If you are in the BHPH industry you should be there."

*- Chris Macheca, PASSTIME, Littleton, Colorado*

"The NABD Dealer Academy set the standard for future events in the BH/PH space by providing a dual track schedule that allowed both new and experienced dealers to select the appropriate agenda based upon their individual needs. The topics were industry specific, and the panelists were true industry leaders who deal with the problems and issues that exist in our market today. Nowhere will you get this level of expertise in one convention focused on the betterment of the BH/PH industry."

"In my opinion, this show provides the most comprehensive schedule of industry specific sessions and informational forums useful at all levels of operations in the BH/PH space. Make no mistake, this show provides even the most successful operators real value through the assembly of true industry experts who all maintain a common goal focused on the betterment of our industry."

"For the second year in a row, we attended the Academy as well as the regular convention. Both shows are a must as the best way to keep informed of what is going on in the BHPH marketplace and NABD is truly the best that I have ever attended. We are obviously in for next year!"

"Thank you so much for a great show last week. It was a wonderful opportunity for NetSpend to strengthen relationships with existing partners and build new ones. As usual, NABD did an excellent job of facilitating conversations during the sessions and directing traffic to the exhibit hall."

*- Yvonne Devany, NetSpend Corporation, Austin, Texas*

"I was very pleased that AutoStar exhibited at NABD 2012. The vendor hall was extremely impressive. The NABD conference keeps growing in attendees and vendors every year, and AutoStar will keep supporting the conference for many years to come."

*- Antonio Rajan, AutoStar, Fort Worth, Texas*

"The energy was very high with the dealers this year. I spoke with many dealers who have realized that doing business as usual is no longer an option. Constantly evaluating and optimizing what they currently do is considered the key to success."
